CULTURE-FIT / SYSTEM ARCHITECTURE

Human-in-the-Loop coordination for AI agents

An open-source HITL layer: connect evidence, check authority, and involve the right person.

PUBLIC VISITOR DEMO

Docker → Railway → SQLite

Same core, isolated browser-cookie storage

Recorded analysis + synthetic conversations; live LLM and Slack are disabled.

The public demo URL is not an external MCP or A2A endpoint.

Official technology logos identify components. Local integration setup is required. No external task execution is implied.
